People ask, "Why is it so important in Eckankar to learn Soul Travel?"

Soul Travel, in a broad sense, is of much value because it is a link to the expansion of consciousness. The rule of destiny holds that people at some time will begin to awaken to who and what they are. A knowledge of past lives may also open to them by way of dreams or déjà vu. A few catch a glimpse of future events.

Note that Soul Travel means moving into the higher realms of God, to places people haven't yet dreamed of. Soul Travel reveals a majesty and security that abounds in the arms of God alone.

For this reason, Soul Travel transcends astral or mind travel, and rote prayer, elevating one into profound spiritual areas. Whenever Soul reaches the far orbits of the inner planes through Soul Travel, the human heart opens to God's all-consuming love.

It is our very purpose to discover that love.

A lifetime is a precious gift, an opportunity for spiritual growth and service to others. Most of all, life brings Soul the purity of love, compassion, and grace.

Death is a doorway, a transition into the inner worlds. Births and deaths mark the journey of Soul. The translation, or movement, from one stage of experience to another is but a further step on Soul's journey home to God.

Doorway to Higher Consciousness

When I was a cameraman in the printing department, I was often called to meetings with other members of the staff. Working with those people was sometimes unbelievably difficult. There were personality quirks and power plays between the pressman and the preparatory department. So I would approach the meeting room and have no idea of what was going to happen on the other side.

Then one day I was shown on the inner planes that every time I walked through a doorway, I was passing through a doorway to heaven. And that was every doorway, as long as I recognized this in my state of consciousness. I decided to experiment with this concept in my daily life.

The next time I approached the meeting room door at work, I declared to myself that I would leave all of my preconceived notions behind; that I would simply walk through the door and enter into a higher consciousness. I was looking for the God Consciousness, although at that time I didn't know what it was.

When I stepped into the room, I paused thoughtfully. I had just declared that I was in a higher state of consciousness. How was I going to treat those at the meeting? From the point of spiritual awareness, I knew that the answer for every question they could fire at me would be at hand. I was learning to be in the childlike state, open to let Spirit bring whatever experience was important. I was tolerant and patient, and I asked, "What do you suggest?"

This technique makes you very aware. It sets up a consciousness similar to that of going on vacation, where everything you see is out of the ordinary and new. When you return home from vacation, back through the door again, your state of consciousness is even higher.

When you assume a goal, acting as if you have achieved it, you next go about figuring out what you can do to achieve that goal. Life then becomes a living, walking, moving set of spiritual exercises, or contemplations.

You can create spiritual exercises as you go about your work. When you declare yourself a vehicle for Spirit, the ECK, that sets all the little atoms going in the right direction. Harmony is the result. Every answer is already at hand, and all that separates you from it is the degree that you can open yourself to ECK.
